Quackenbush. He was employed in the office of the Chief of Qrdnanec of the Army, and had previous-ly served in a clerical capacity at the headquarters, Department of the Pacific.

Mr. Sharp left home early in life and took up his abode in the wilderness of the Western mountains, where he hunted and fished with the Indians for many seasons, oftentimes not seeing a "paleface" Spanish war enlisted in Company B. First District Volunteer Infantry, and soon rose to the grade of first sergeant of that company, and was discharged therefrom at Montauk Point on the return of his regiment from Cuba. His remains were buried at Arlington with appropriate honors. He leaves a widow and two children to mourn his loss. in menths. The Indians taught him to hunt and fish successfully, and today Mr. Sharp is recognized as one of the most enlightened and successful gun and rod exponents in the United States, Mr. Sharp was for several years a representative of the press, and has contributed a great deal of information concerning game, their breeding and killing seasons, and differ-

"While fishing with a party of Washingtonians above Little Falls, last year, one of the party had a novel experience. He was fishing for perch, with angleworms, and had been waiting patiently for some time, when, much to his surprise, he received a very savage strike. It was too strong for a perch, he thought and paid out a good deal of line before striking. When he did so, the water was immediately lashed into foam by the wild struggles of his prey, which did not for some time come to the surface. The onlookers awaited developments with bated breath, and were profuse in suggestions as to the handling of the tackle. The gentleman, however, exercised his best judgment, and though very much excited, did not lose his though very much excited, did not lose his

which should be given to preparation for Summer Conferences.

One of the prominent features of the ssociation movement is the frequent inferences held at which the association roblems are studied and methods and lans suggested whereby the work can be etter executed. The student department olds four such conferences, one at Northfield for the Eastern colleges, one at Asheville, N. C., for the Southern

group; one at Lake Geneva, Wis., for the central and Western colleges, and still another is held upon the Pacific Coast. At these gatherings all of the various phases of the work among college men are presented by the most able speakers procurable, and at the same time the delegates combine the recreative feature with the work of the conference. Another and perhaps the most important gather-ing will be the bi-annual gathering of the ecretaries and other paid officers, which will be held at Mountain Lake Park, Md., June 11-16; this will undoubtedly be the largest attended of any of the conferences to be held this summer. It is planned to have a special excursion to this city on the Monday following the convention, Among the other gatherings that will be held this summer, will be one at Lake Geneva for the study of the work from the standpoint of the volunteer worker; also a similar gathering at Lake George. N. Y. The Pennsylvania workers will hold their regular summer Bible confer-ence at Eagles Mere, which is one of the strongest of the many summer Bible conferences held in any part of the country. It is by means of these gatherings that the different aspects of the work are presented, the results of the experience of others engaged in a like work are considered, and all who attended are encouraged and equipped to do the bes

UNIVERSITY EXPELS SIXTY-ONE STUDENTS

Stir Caused at Jackson, Tenn., Baptist Institution.

Trouble Originated Between Professor and Foreman and Students Espoused Former's Part.

JACKSON, Tenn., April 26 .- A stir was used in the Southwestern Baptist Uniersity circles yesterday when Dr. G. M. Savage, the president, announced the dismissal of sixty-one young men students. The trouble originated about ten days igo, when Prof. Bray, one of the teachrs in the institution, and Steed King,

oreman, had a quarrel. Prof. Bray sent a communication to the ecutive board, saying that unless King pologized or was dismissed, he would ender his resignation.

The executive board referred the mat er to President Savage for adjustment. Prof. Bray grew impatient, and failed appear Monday to teach his classes.

These sixty-one students then took the natter up and protested to the board, emanding that King be made to apolo-The board decided to expel the signers this protest, but announced that those he personally asked to have their names withdrawn from the paper, and signed a

Superfluous Hair Permanently Removed.

A Wonderful Discovery by a Woman.

While traveling in Mexico I discovered a drug which removes hair from face, arms, neck, or any part of the body instantly and permanently. I have been offered hundreds of dolins for my secret, but I would rather handle this valuable treatment myself, so will send to anyone afflicted information without any expense but a postage stamp. Don't judge my treatment by unsuccessful attempts of others. I have treated thousands who are now thankful for life to me. I suffered for years with this affliction, and now my life's work is to help others from this humiliating trouble. My treatment is casy and accomplished at home, and I will forfeit \$100 if it fails to remove hair. Don't suffer longer. Relief is now yours for the asking. Don't send any money; merely write me of your case and I will personally send you full information that will end that shame and sensitiveness that you myet suffer. Everything sent you will be carefully select and your letter strictly held confidential. Address MME. DOREE, 1544 Euclid ave., Philadelphia, Pa.
